

# Nichiha Certified Installer Training

## Nichiha Certified Installer Training

## Become A Nichiha Certified Installer

### Residential & Commercial

#### Powerful 1-day classroom and hands-on training course

During this course you will learn features and benefits of Nichiha fiber cement products, the proper tools and equipment required when working with Nichiha products and all aspects of installation for a variety of residential and commercial construction methods.

#### You will learn...

- ◆ Know and learn safety precautions when using fiber cement.
- ◆ Know and learn the different Nichiha panel and board products, in addition to accessories and trim options available.
- ◆ Know and learn the proper installation procedures of all products for appropriate construction methods.
- ◆ Perform a simulated installation.

### Certified Installer Support

- ◆ Nichiha signage package
- ◆ Technical and sales materials.
- ◆ *Certified Installer* listing on the Nichiha web site with web links.
- ◆ Technical bulletins and installer page on Nichiha web site for installation, technical, and product updates.
- ◆ Sales leads gathered from trade shows, ads, and public relations effort in addition to leads from our sales staff.
- ◆ Direct and immediate access to Nichiha Technical Department staff.
