

Sealant & Adhesive Recommendations

Nichiha Fiber Cement Products

Sierra Premium™ Shake Stains

Other polyurethane sealant and adhesive manufacturers not listed would be acceptable to use with Nichiha Sierra Premium stained shake boards. For questions regarding the products listed here, contact the manufacturers directly or call Nichiha Technical Department toll free at 1.866.424.4421.

Nichiha makes recommendations of types of sealants commercially available i.e. polyurethane or hybrid equivalent. Nichiha USA, Inc. is not responsible for color matching of sealant manufacturers' products, as different color lots from the same manufacturer can vary greatly. We recommend that you test a small area with sealant before you purchase sealant for entire project. As with ALL projects the customer or contractor should approve the specific color match of the selected sealant before purchasing quantities of sealant from any manufacturer.

Sierra Premium™ Caramel

Brand Name	Product Name	Color Names
