Our History

ALL PRODUCTS

Sierra Premium™ Smooth

Founded in 1956, Nichiha Japan first began manufacturing hardboard products for the auto industry. Fueled by the constant drive for innovation, Nichiha launched its first line of fiber cement claddings in 1973. Today Nichiha has the largest share of fiber cement cladding in Japan, and is considered the worldwide leader in fiber cement technology.

In 1998, Nichiha USA, Inc. began selling Japanese imported products in an effort to fill a need in the U.S. building market. In 2007, we opened our first plant in Macon, GA which manufactures a full line of lap siding products.

Today Nichiha USA, Inc. offers a wide range of fiber cement products from the very innovative masonry panels which utilize a hidden clip system to the more traditional lap siding products used typically in residential building. We look to inspire building professionals everywhere to take a closer look at Nichiha.

NichiFrontier™

NichiProducts™

Product Certification: Report No. ESR-1694

Silica Dust Warning: NICHIHA products may contain some amounts of crystalline silica [a.k.a. sand, silicon dioxide], which is a naturally occurring mineral. The amount will vary from product to product. Inhalation of crystalline silica into the lungs and repeated exposure to silica can cause health disorders, such as silicosis, lung cancer, or death depending upon various factors. To be conservative, Nichiha recommends that whenever cutting, sawing, sanding, sniping or abrading the product, users observe the Safety Instructions above. For further information or questions, please consult the MSDS, your employer, or visit www.osha.gov/SLTC/silicacrystalline/index.html and www.cdc.gov/niosh/topics/silica. The MSDS for Nichiha products are available at www.nichiha.com, at your local Nichiha dealer or through Nichiha directly at 1.866.424.4421. FAILURE TO ADHERE TO OUR WARNINGS, MSDS, AND OTHER INSTRUCTION MAY LEAD TO SERIOUS PERSONAL INJURY OR DEATH.
